INCEPTION DECK
What are your client's top goals?
What is your client's vision?
What are your client's top fears?
Who has to be kept in the loop?

What will the solution look like?

"You pick your architecture when you pick your team so you’d better make sure everyone is on board with your solution before you begin."

*The Agile Samurai*
Recommended Agenda

- Introduce yourselves
- Demo and describe your teams' current skills
- Summarize your (mis)understanding of the project
- Find out what they really want
  - Inception deck
- Set the deadline and initial MVP for iteration 1
  - a week + maybe a few days to hit a good date
