Comments: Ananth's recitations were incredibly helpful. I think Prof. Dinda should make it a requirement for students who may be inexperienced in computer science. Ananth is really good at explaining everything. His weakness might be that he is also apt to cover material at a rather fast pace. / The TA was quite knowledgeable and fairly friendly, although also a bit standoffish. He was always available, above and beyond what I would expect from a TA, which was quite wonderful! // the best TA there is // Ananth also had good knowledge of the subject and provided clear answers to any questions. However, his presentations in recitation were occasionally too basic and slow. // He is very patient and responsible when doing his job, also well prepared and competent for his job. // Ananth is on top of things and is very enthusiastic / Ananth genuinely cares about the students; he attends most if not all lectures, and always made himself available to students who were having trouble with homework sets or projects. / Ananth is great! He was always helpful and very quick to respond to any questions, always providing helpful feedback and suggestions.
