

JOHN RUSSELL LANGE

Curriculum Vitae

Northwestern University
Department of Electrical Engineering and Computer Science
2145 Sheridan Rd, Tech L359
Evanston, IL, 60208
Phone: (773) 495-0920
Email: jarusl@cs.northwestern.edu
Web: <http://www.cs.northwestern.edu/~jrl829>

Research Interests

My research focuses on the design of core systems software capable of fully utilizing next generation hardware environments while at the same time being amenable to dynamic resource managers. My research is based specifically in the context of high performance computing. To increase the applicability of high performance systems, I seek to provide unmodified applications transparent access to high performance resources. My research predominantly uses virtualization mechanisms to achieve these goals. My methods are based on the design, implementation and evaluation of experimental systems.

Education

2004 - Present	<i>Northwestern University</i> Ph.D. in Computer Science, Expected: 2010 Thesis: Symbiotic Virtualization Advisor: Peter A. Dinda M.S. in Computer Science, June 2006
2003	<i>Northwestern University</i> B.S. in Computer Science B.S. in Computer Engineering

Employment

Winter 2009	Adjunct Lecturer, <i>Northwestern University</i>
6/07 - 9/08	Software engineer, <i>Neokast LLC</i>
Summer 2007	<i>Symantec Research Labs</i>
Summer 2006	<i>Symantec Research Labs</i>
2004 - present	Graduate Research Assistant, <i>Northwestern University</i>
1/04 - 9/04	Research Associate, <i>International Center for Advanced Internet Research</i>
6/02 - 12/03	Research Assistant, <i>Northwestern University</i>
Summer 2001	Software Developer, <i>Medical Metrics Inc</i>
Summer 2000	IT Intern, <i>Fulbright and Jaworski, LLP.</i>
1/99	IT Intern, <i>Rice University</i>
8/98 - 9/99	System Administrator, <i>The Kinkaid School</i>
8/01 - present	Co-founder/Board Member, <i>Artifex.org</i>

Teaching

Winter 2009	Taught MSIT short course on Resource Virtualization and the Enterprise
Winter 2007	Teaching Assistant for Introduction to Electrical Engineering
Winter 2006	Teaching Assistant for Resource Virtualization
Fall 2006	Teaching Assistant for Operating Systems
Fall 2006	Teaching Assistant for Probabilistic Systems and Random Signals

Co-Advised Students

Steven Jaconette	Co-advised Northwestern University undergraduate NSF REU (Summer 2009)
Andy Gocke	Co-advised Northwestern University undergraduate NSF REU (Summer 2009)
Rob Deloatch	Co-advised University of Maryland undergraduate Northwestern SROP program (Summer 2009)
Matt Wojcik	Co-advised Northwestern University undergraduate NSF REU (Summer 2008)
Peter Kamm	Co-advised Northwestern University undergraduate NSF REU (Summer 2008)

Honors

2007 - 2008	<i>Symantec Graduate Research Fellowship Recipient</i>
-------------	--

Professional Activities

<i>Program Committee</i> The 19th International Symposium on High Performance Distributed Computing	HPDC 2010
<i>Student Activities Co-Chair</i> The 19th International Symposium on High Performance Distributed Computing	HPDC 2010
<i>Program Committee</i> The 3rd International Workshop on Virtualization Performance: Analysis, Characterization, and Tools	VPACT 2010
<i>Program Committee</i> The 4th International Workshop on Virtualization Technologies in Distributed Computing	VTDC 2010
<i>Program Committee</i> The 1st Workshop on Managed Many-Core Systems	MMCS 2009
<i>Program Committee</i> The 3rd International Workshop on Virtualization Technologies in Distributed Computing	VTDC 2009
<i>Program Committee</i> The 3rd Workshop on System-level Virtualization for High Performance Computing	HPCVirt 2009
<i>Program Committee</i> The 1st International Workshop on Grid over Optical Burst Switching Networks	GOBS 2007
<i>Co-Founder</i> Northwestern Graduate Research Seminar	

Software

<i>Palacios VMM</i>	OS Independent Embeddable Virtual Machine Monitor Released as open source under BSD license Downloaded over 1000 times as of July 2009
<i>EmNet</i>	Empathic home network traffic optimization system
<i>Speculative VNC</i>	Extended VNC client with embedded Markov predictor
<i>Virtuoso</i>	Distributed management service for a virtual machine marketplace Server management service and web based frontend interface
<i>VTL</i>	Framework for implementing transparent network services
<i>VNET</i>	Layer 2 overlay network for networking of wide area distributed virtual machines
<i>PERSONA</i>	Network path component resource scheduler for circuit switched optical networks
